Gain more value from your accreditation program.

CAP accreditation is more than “something to check off your list.” It is an opportunity to help keep your laboratory operating at peak performance.

- The CAP offers educational material and support, including highly-trained medical technologists who are available to answer questions.
- The peer inspection model helps participants develop meaningful connections, learn from each other, and share best practices.

Competency Assessment and Safety & Compliance Program

Your laboratory's license for Competency Assessment Program is based on the number of individuals who will be using Competency Assessment Program—that is, the number of people for whom you will be assessing competency, not the number of employees in your laboratory. The Safety & Compliance course package is an addition to your Competency Assessment Program order. The same employees enrolled in Competency Assessment Program will have access to Safety & Compliance courses if the additional fee is paid.

Refer to pages 15–17 of the Surveys catalog for program information.

Number of Users	Competency Assessment Program	Safety & Compliance Courses**
	Program Code	Program Code
Up to 50	CA0050	XCA0050
51 to 250*	CA0250	XCA0250

*More than 250 users: Call 800-323-4040 or 847-832-7000 option 1.

**Safety & Compliance course package must be purchased in conjunction with Competency Assessment Program subscription. Not available for purchase separately.
