Fee-for-Service Autopsy List

Updated April 2020

This list is offered as a service to members of the public seeking a pathologist to perform an autopsy. The list consists of members of the College of American Pathologists (CAP) who expressed an interest in performing autopsies on a fee-for-service basis. All list members are board-certified pathologists, and none has paid to be included on this list.

The CAP has not investigated the training or experience of any individual on this list. Before engaging the services of any such individual, please conduct your own investigation and assessment of the qualifications of that individual. THE COLLEGE OF AMERICAN PATHOLOGISTS DOES NOT ENDORSE ANY INDIVIDUAL ON THE LIST AND HEREBY DISCLAIMS ANY RESPONSIBILITY FOR THE ACTIONS OF SUCH INDIVIDUAL.

This list is provided in the hopes of providing families with opportunities and options when an autopsy is not otherwise available through their local hospital or medical examiner/coroner. In addition to the financial and logistical details, family members inquiring about autopsy services from these pathologists should consider asking pertinent questions such as:

"Will the autopsy help answer the question(s) we have about the death?"
"How many fee-for-service autopsies have you performed in the last year?"
"How can we facilitate review of medical records prior to the autopsy?"
"What facilities do you use for histology and special staining of tissue sections?"
"How soon should I expect a final autopsy report?"
"Will the autopsy help answer the question(s) we have about the death?"

The answers to these and any other pressing questions (such as concerns about toxicology and/or other postmortem blood testing) should help inform the decision-making process in selecting a fee-for-service autopsy pathologist.

**CAP members can request to be listed as a fee-for-service autopsy consultant. If you are a CAP member pathologist log in to access the request form.**
