Gain more value from your accreditation program.

CAP accreditation is more than “something to check off your list.” It is an opportunity to help keep your laboratory operating at peak performance.

- The CAP offers educational material and support, including highly-trained medical technologists who are available to answer questions.
- The peer inspection model helps participants develop meaningful connections, learn from each other, and share best practices.

Competency Assessment Hub and Safety & Compliance Program

The license for your laboratory or network for the Competency Assessment Hub is based on the number of individuals who will be using the program—that is, the number of people for whom you will be assessing competency and the number who will be assigning and documenting competency, not the number of employees. The Safety & Compliance course package is an addition to your Competency Assessment Hub order. The same employees enrolled in the Competency Assessment Hub will have access to Safety & Compliance courses if the additional fee is paid.

Refer to pages 16-18 of the Surveys catalog for program information.

Number of Users*	Competency Assessment Hub	Safety & Compliance Courses**
	Program Code	Program Code
2 to 50	CA0050	XCA0050
51 to 250	CA0250	XCA0250

*For subscriptions for single users or more than 250 users, please contact the CAP for more information.

**Safety & Compliance course package must be purchased in conjunction with Competency Assessment Hub subscription. Not available for purchase separately.
