

CAP Policy VIII-G

Employee Non-involvement in CAP Election Campaigns

CAP employees should not involve themselves in any activity (eg, attending receptions and hospitality suites, giving personal advice, or providing assistance or endorsements) to support candidates for CAP office or that might reasonably give the appearance that they favored a candidate.

Likewise, candidates for office should avoid asking staff members for assistance with their campaigns or otherwise placing staff members in a compromising position. Candidates seeking assistance within CAP policy (copies of mailing list, information about election procedures, etc.) should contact the Department of Governance Services.
