- President, Susan G. Komen, Wisconsin
- Vice Chair, Ascension Wisconsin Foundation

WHY DO YOU WANT TO BE A GOVERNOR OF THE CAP?

I served on the Board of Governors during my tenure as President of the CAP Foundation. At that time, I realized the full scope of the College of American Pathologists, and the vitally important work of the organization, not only on a national level, but on the world-wide stage. It would be my honor to serve on the board and help shape the future of our specialty for generations to come.

WHAT MAJOR ISSUES DO YOU SEE FACING THE CAP DURING THE NEXT THREE YEARS?

1. Pathology pipeline and recruitment challenges of physicians into our specialty
2. Continued negative pressures on reimbursement within public and private payers
3. Expansion of digital platforms, artificial intelligence and machine learning and incorporation into workflows
4. Continued challenges (and opportunities) with the CAP value proposition and membership
5. Shifting of accreditation activities away from the CAP to other accreditation providers

IF ELECTED, WHAT DO YOU HOPE TO ACCOMPLISH?

The board has started the process of critically looking inward to assess if all the activities it is currently engaged in are still valuable and/or relevant in today's environment. I would like to be a part of this continued work to ensure that the College remains current and relevant for our membership today and position it for continued success in the future as THE pathologists' organization.
