- Program Chair: American Pathology Foundation (developed programs for four annual meetings)
- Chair, Resident, Section Fellow: Texas Medical Association
- Delegate to the Resident/Fellows Section, Young Physician Section, and Organized Medical Staff Section: American Medical Association

WHY DO YOU WANT TO BE SECRETARY-TREASURER OF THE CAP?

I am very passionate about all things CAP and have been since I was a resident member of the Practice Guidelines Committee.

Secretary-Treasurer is a very important position in the CAP. As an officer, they will have a strong role in helping to set the direction and tone of the organization with the other officers. This individual needs to have a strong understanding of all facets of the CAP to be effective.

I have a both depth and breadth of experience in the CAP. If you think of the five councils (COE, CSA, COA, CGPA, CMPD), I have served on the councils and/or multiple committees in all five except for COE. But even with education, I have years of experience developing educational programs for the American Pathology Foundation and both Virginia and South Carolina Pathology Societies.

Other areas outside of the five councils that I have been involved in include a long tenure in the House of Delegates (including multiple leadership positions) and numerous years on the Web Engagement Steering Committee/Information Technology Leadership Committee (ITLC). The CAP's future is going to

be strongly tied to information technology as we try to improve our current offerings and develop new ones.

I want to use my experience to represent the profession and make sure that the CAP is responsive to members, financially sound and preparing for the future.

WHAT MAJOR ISSUES DO YOU SEE FACING THE CAP DURING THE NEXT THREE YEARS?

- Increased competition for PT and accreditation
- New technology to include artificial intelligence
- Reimbursement / changing payment models
- Diversity
- Declining membership
- Medical student interest in pathology

IF ELECTED, WHAT DO YOU HOPE TO ACCOMPLISH?

First and foremost, I want the CAP and pathology to be in a better financial / market position when I leave than before I was elected (if elected).

I would like to see the CAP leverage the additional exposure from the pandemic to bring pathology more into the mainstream. I want the CAP to become more innovative in all its areas. There needs to be a focus on members to decrease membership losses and better reflect our diversity. For more information, see my website at www.alfredcampbellmd.com.
