

## CAP Cancer Protocols Summary of Changes June 2024

Group	Revised Cancer Protocols	Version	Changes
Breast	Breast Invasive, Resection	4.10.0.0	<ul style="list-style-type: none"> <li>The individual reporting parameters of the Residual Cancer Burden (RCB) section can now be reported independently of each other to accommodate for special scenarios (such as neoadjuvant endocrine treatment) when the overall RCB calculation results may not apply and to add flexibility in treatment effect reporting.</li> <li>Explanatory Note K updated to clarify use of “y” prefix and gross sampling for RCB Score reporting</li> </ul>
Bone & Soft Tissue	Bone, Resection	4.2.0.0	<ul style="list-style-type: none"> <li>Updates to Cover Page</li> <li>Updates to content and explanatory notes, including WHO Histologic Types</li> <li>pTNM Classification update</li> <li>LVI question update from optional to required (core) and Lymphovascular Invasion to Lymphatic and / or Vascular Invasion</li> <li>Other Close Margin(s) to Tumor criterion update</li> <li>Mitotic Rate answer update</li> <li>Addition of required (core) questions Treatment Effect (for post-neoadjuvant therapy, and Tumor Laterality</li> <li>Updates to conditional question Necrosis in the Absence of Neoadjuvant therapy (required only if neoadjuvant therapy was not administered)</li> <li>Addition of optional questions Associated Syndrome, Other Clinical Findings, and Decalcification Procedure</li> <li>Updates to SPECIAL STUDIES section</li> </ul>
Bone & Soft Tissue	Bone, Biopsy	4.2.0.0	<ul style="list-style-type: none"> <li>Updates to Cover Page</li> <li>Updates to content and explanatory notes, including WHO Histologic Types</li> <li>LVI question update from optional to required (core) and Lymphovascular Invasion to Lymphatic and / or Vascular Invasion</li> <li>Mitotic Rate answer update</li> <li>Addition of required (core) question Tumor Laterality</li> <li>Addition of conditional question Multiple Sites (required only if applicable)</li> <li>Addition of optional questions Associated Syndrome, Other Clinical Findings, Decalcification Procedure, and Tumor Size (based on clinicoradiologic parameters)</li> <li>Updates to SPECIAL STUDIES section</li> </ul>

## CAP Cancer Protocols Summary of Changes June 2024

Bone & Soft Tissue	Soft Tissue, Resection	4.2.0.0	<ul style="list-style-type: none"> <li>• Updates to Cover Page</li> <li>• Updates to content and explanatory notes, including WHO Histologic Types</li> <li>• pTNM Classification update</li> <li>• LVI question update from optional to required (core) and Lymphovascular Invasion to Lymphatic and / or Vascular Invasion</li> <li>• Updates to MARGINS section</li> <li>• Addition of required (core) question response Nodal Site(s) with Tumor (specify)</li> <li>• Addition of optional questions including Associated Syndrome, Radiologic Findings, Preresection Treatment, Tumor Laterality and Tumor Extent and Depth of Invasion</li> <li>• Updates to SPECIAL STUDIES section</li> </ul>
Bone & Soft Tissue	Soft Tissue, Biopsy	4.2.0.0	<ul style="list-style-type: none"> <li>• Updates to Cover Page</li> <li>• Updates to content and explanatory notes, including WHO Histologic Types</li> <li>• LVI question update from optional to required (core) and Lymphovascular Invasion to Lymphatic and / or Vascular Invasion</li> <li>• Addition of optional questions including Associated Syndrome, Radiologic Findings, Tumor Laterality, Tumor Size (based on clinicoradiologic parameters), and Tumor Extent and Depth of Invasion</li> <li>• Removal of MARGINS section</li> <li>• Updates to SPECIAL STUDIES section</li> </ul>
Endocrine	Duodenum and Ampulla NET	2.0.0.1	<ul style="list-style-type: none"> <li>• Histologic Type answer spelling correction</li> </ul>
Endocrine	Pancreas (Endocrine)	5.0.1.0.	<ul style="list-style-type: none"> <li>• Added additional sites to Involved by Direct Tumor Extension question</li> <li>• Corrected format error in Histologic Type and Grade answer</li> </ul>
Gastrointestinal	Colon and Rectum, Resection	4.3.1.0	<ul style="list-style-type: none"> <li>• Updates to Explanatory Notes G (Tumor Budding), K (Tumor Deposits), and L (pTNM Classification)</li> <li>• Typographical update to Histologic Grade</li> </ul>
Hematologic	Myeloid and Mixed / Ambiguous Neoplasms	1.1.0.0	<ul style="list-style-type: none"> <li>• Typographical correction of mutation under Molecular Alterations Detected question in SPECIAL STUDIES section from interim to internal</li> </ul>

## CAP Cancer Protocols Summary of Changes June 2024

Genitourinary	Kidney, Resection	4.2.0.0	<ul style="list-style-type: none"> <li>Title and Cover Page update</li> <li>WHO 5<sup>th</sup> Edition update to content and explanatory notes</li> <li>pTNM Classification update</li> <li>Addition of required (core) question, Histologic Features</li> <li>LVI question update from optional to core element and terminology changed Lymphovascular Invasion to Lymphatic and / or Vascular Invasion</li> </ul>
Genitourinary	Kidney, Biopsy	4.2.0.0	<ul style="list-style-type: none"> <li>Title and Cover Page update</li> <li>WHO 5<sup>th</sup> Edition update to content and explanatory notes</li> <li>Addition of required (core) question, Histologic Features</li> <li>LVI question update from optional to core element and terminology changed from Lymphovascular Invasion to Lymphatic and / or Vascular Invasion</li> </ul>
Genitourinary	Testis Lymphadenectomy	4.2.1.0	<ul style="list-style-type: none"> <li>Addition of Precaval answer to Site of Largest Nodal Metastatic Deposit question</li> </ul>
Genitourinary	Urethra, Biopsy	4.2.0.1	<ul style="list-style-type: none"> <li>Cover page correction to Procedure table</li> </ul>
Gynecologic	Ovary, Fallopian Tube, or Peritoneum	1.5.0.0	<ul style="list-style-type: none"> <li>Cover page update</li> <li>Updates to content and explanatory notes, including WHO Histologic Types</li> <li>Inclusion of additional Histologic Grading Systems</li> <li>FIGO 2021 Cancer Report update</li> <li>pTNM Classification updates to pT and pN categories</li> <li>Updates to DISTANT METASTASIS section</li> <li>Updates to SPECIAL STUDIES section</li> </ul>
Gynecologic	Vulva, Resection	5.1.0.0	<ul style="list-style-type: none"> <li>Separated Margin Status for Paget Disease elements from the Margin Status for Precursor Lesions of Squamous Cell Carcinoma question</li> <li>REGIONAL LYMPH NODE section typographical updates and Size of Largest Nodal Metastatic Deposit outdented.</li> <li>Semantic change to pT3 and pN0(i+) staging terminology</li> <li>Typographical updates to SPECIAL STUDIES section</li> <li>Update to Explanatory Note A (resection margins)</li> </ul>

## CAP Cancer Protocols Summary of Changes June 2024

Skin	Invasive Melanoma of The Skin: Excision, Re-Excision	1.1.0.0	<ul style="list-style-type: none"> <li>• Added specify site to Tumor Site answer Skin of trunk</li> <li>• Reporting of Macroscopic Satellite Lesion(s) status updated to optional</li> <li>• Reporting of Histologic Type updated to conditional</li> <li>• Added list item response answers to Anatomic (Clark) Level question</li> <li>• Added optional Method of Detection questions for the presence of Lymphatic and / or Vascular Invasion and when Tumor present in regional lymph node(s) is selected</li> <li>• Updates to MARGINS section</li> <li>• Updated answer to Nodal Site(s) with Tumor question</li> <li>• pN Category staging correction and overall editing in conjunction with AJCC for improved clarity of classifications</li> </ul>
