

CAP Cancer Protocols Summary of Changes June 2026

	Protocol	Protocol Version Number	eCP Version Number	Summary of Changes
1	Breast DCIS, Biopsy	1.1.0.0	1.003.001	<ul style="list-style-type: none"> • WHO 6th Edition updates to content and explanatory notes • Cover page update • Tumor Site and Architectural Pattern(s) question updates • Histologic Type and Nuclear Grade questions now multi-select • Added Extent of DCIS in this Limited Biopsy in Millimeters (mm) question • Added Additional Lesions(s) question
2	Breast DCIS, Resection Accreditation Change	4.5.0.0	3.004.001	<ul style="list-style-type: none"> • WHO 6th Edition updates to content and explanatory notes • Cover page update • Tumor Site, Size (Extent) of DCIS, and Architectural Pattern(s) question updates • Histologic Type and Nuclear Grade questions now multi-select • Added Additional Lesion(s) question • MARGIN, REGIONAL LYMPH NODE, SPECIAL STUDIES section updates • pTMN Classification updates to include Modified Classification, T Suffix, optional pN Category, and addition of N Suffix
3	Breast Invasive, Biopsy	1.3.0.0	1.005.001	<ul style="list-style-type: none"> • WHO 6th Edition updates to content and explanatory notes • Cover page update • Tumor Site, Histologic Type, Histologic Grade, Nuclear Pleomorphism, Mitotic Rate, and Overall Grade question updates • Largest Invasive Focus in this Limited Biopsy Sample in Millimeters (mm) question made required (core) • Ductal Carcinoma In Situ question modifications to include addition of Extent of DCIS (relative to invasion) question and updates to Architectural Pattern question • Added Additional Lesion(s) question
4	Breast Invasive, Resection Accreditation Change	4.11.0.0	4.011.001	<ul style="list-style-type: none"> • WHO 6th Edition updates to content and explanatory notes • Cover page update • Tumor Site, Histologic Type, Histologic Grade, Nuclear Pleomorphism, Tumor Size, Tumor Extent, Lymphatic and / or Vascular Invasion, Treatment Effect in Lymph Nodes, and Residual Cancer Burden (RCB) Parameters question updates • Tumor Focality question updated and made required (core) • Ductal Carcinoma In Situ question modifications to include updates to Architectural Pattern question • Added repeating Tumor Characteristic section, Additional Lesion(s), and Extent of LCIS questions • MARGIN, REGIONAL LYMPH NODE, SPECIAL STUDIES section updates • Minor pTNM Classification updates to include pT4 staging display item and pM Category Special Case Number(s) with Metastasis question terminology

CAP Cancer Protocols Summary of Changes June 2026

5	Head & Neck - HPV-Associated Oropharynx Accreditation Change	1.1.0.0	1.001.001	<ul style="list-style-type: none"> Removed redundant "Present" list item response answer to Perineural Invasion question Minor pTNM Classification update to include the addition of pT not assigned (cannot be determined based on available pathological data) answer
6	Head & Neck – Mucosal Melanoma Accreditation Change	1.1.0.0	1.001.001	<ul style="list-style-type: none"> Updates to Procedure question
7	Kidney, Biopsy	4.3.0.0	2.007.001	<ul style="list-style-type: none"> Removed the Histologic Features question to make Rhabdoid Features and Sarcomatoid Features two separate questions G4 Histologic Grade is now a list item (previously a list item response), and GX, cannot be determined now a list item response (previously a list item)
8	Kidney, Resection Accreditation Change	4.3.0.0	3.007.001	<ul style="list-style-type: none"> Removed the Histologic Features question to make Rhabdoid Features and Sarcomatoid Features two separate questions Removed Additional Dimensions for Tumor Size G4 Histologic Grade is now a list item (previously a list item response), and GX, cannot be determined now a list item response (previously a list item)
